### **ZONING CODE UPDATE**

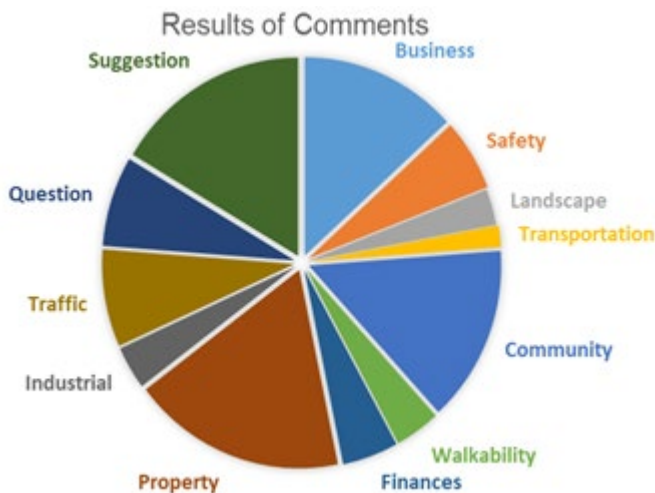

On June 23, 2022, Planning Division Staff provided the Planning Commission with an update on public engagement efforts for the comprehensive update to the Pomona Zoning Ordinance (“Code Update”). Between April and May of 2022, Staff publicly engaged the community on the Zoning Code Update through the City Website, City Instagram and Facebook platforms, and a series of public meetings and “pop-up” events.

The public was engaged on content that was similar to that presented to the Planning Commission. On April 13, 2022, Staff presented the draft Zoning Map to the Planning Commission and shared three-dimensional modeling demonstrating potential zoning metrics. This modeling tested the viability of development on individual parcels and the ability to achieve the goals outlined in the 2014 Pomona General Plan. Staff provided a summary of the key issues (Fig 1.4, below) that were raised on the topics and themes pertaining to the code update. Staff intends to incorporate the comments received into its analysis as part of drafting zoning districts, and intends to return to the community in Fall 2022 with additional engagement and updates.

For Code Update, the Planning Division is continuing its community engagement approach of “meeting community members where they are,” by utilizing different approaches to outreach and using different platforms for sharing information with the general public. The traditional approach of a standing, single community meeting was retained, but a more robust strategy of “pop-up” events was deployed. Staff conducted 27 pop-up events and locations included local grocery stores, local parks, community events, local gathering centers, and houses of worship in 18 different locations. These pop-up events were intended to bridge the gap between local government and community members who may not be able to participate in community meetings. The goal of these pop-up events was to gather community input from a variety of census tracts and community events to diversify the input Staff receives as well gain feedback from the community on the renderings before drafting district standards.

## ***PUBLIC WORKS***

### **UPDATED: DETOUR TRAFFIC FROM EAST END AVENUE CLOSURE IN THE CITY OF CHINO EXTENDED**

An industrial project in the City of Chino is underway on the northwest corner of the intersection at East End Avenue and County Road. The project includes roadway reconstruction and utility improvements that requires the closure of East End Ave and County Road. East End Avenue, from Napa Drive to County Road, has been closed daily since Monday, May 23, 2022. The closure will be extended to Friday, July 8, 2022, from

7:00 a.m. to 3:30 p.m. As part of another construction phase, County Road will close later this year (specific dates to be determined). Updates and notifications regarding this work will be made as this phase gets closer to groundbreaking.

The detour route will use Philadelphia Street, Reservoir Street, and County Road through the City of Pomona for both construction projects. Appropriate detour signage will be in place during the roadway closures to direct motorists to and through the detour.

### **SR-71 FULL FREEWAY OVERNIGHT CLOSURE**

The California Department of Transportation (Caltrans) will conduct a full freeway overnight closure of the SR-71 for Southern California Edison (SCE) work associated with the SR-71 Widening Project. An overhead line reconductor will be installed, requiring the reconnection of the power lines to relocated power poles. The closure will begin on Sunday, June 26, 2022 (Southbound lanes at 10:30 p.m. and Northbound lanes at 11:00 p.m.) and end on Monday, June 27, 2022 at 4:00 a.m. (both directions).

The schedule is weather permitting, and all dates and times are subject to change.

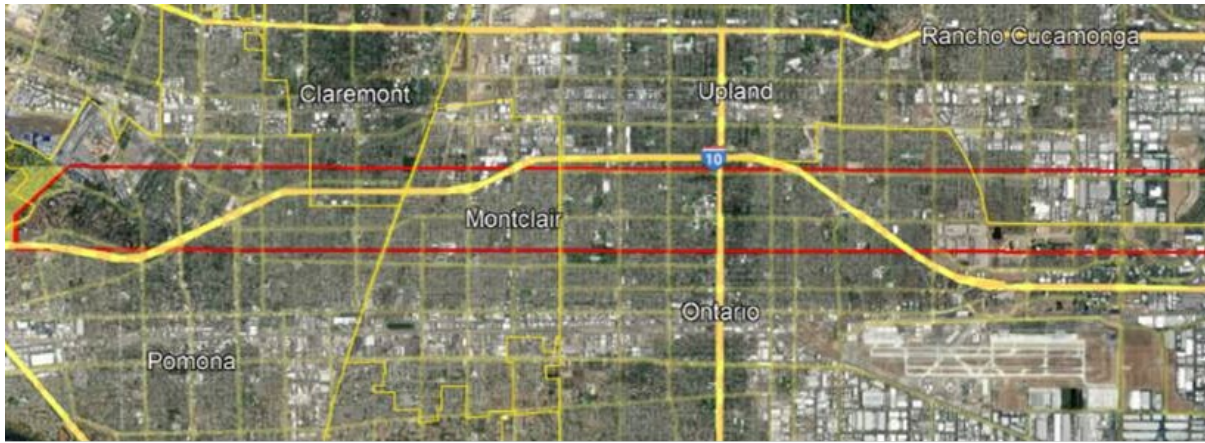

Detours will be posted. Motorists should expect delays and are strongly advised to avoid the area and use alternate routes.

### **SOCALGAS – MANNED FLIGHT – AERIAL METHANE MAPPING (AMM)**

Pipeline safety and maintenance continues to be a top priority for So Cal Gas (SCG). SCG will be working with a helicopter company to map any methane emissions over SCG infrastructures in the cities of Ontario, Rancho Cucamonga, Monclair, Pomona, Claremont, and San Dimas. This exciting new technology allows SCG to detect methane emissions from the air at a 500 feet altitude (within normal FAA flight operations regulations.)

- The flights are expected to be the week of June 27<sup>th</sup>, weather permitting.
- The helicopter will be go in a back-and-forth “lawnmower” pattern at about 500 feet.
- Hours of operation will be from 8 A.M. to 5 P.M.
- There is no threat to the community. On the contrary, detection of methane emissions is another method for helping to keep the communities we serve safe. This is part of our SB 1371 natural gas emissions reduction program.
- These flights are a portion a larger program to map any emissions over the many cities and unincorporated areas served by So Cal Gas.

If you have any questions regarding the helicopter activity, please contact So Cal Gas Customer Contact Center at **1-800-427-2200**. Company representatives are available 24 hours a day, seven days a week.
