### Capital Improvement Program Project Details

Project Title: **Sewer Force Mains - Pumping Plants 1, 2 and 3 Design**

**Project Description:** This project provides for the design of redundant force mains for Pumping Plants 1, 2 and 3 to make the force mains eligible for transfer to the Los Angeles County Sanitation Districts (LACSD). Ownership of the City's four sewer Pumping Plants and the force mains associated with Pumping Plant No. 4 was transferred to the LACSD in April 2013. The force mains for Pumping Plants 1, 2 and 3 were constructed in 1967, 1995, and 2002, respectively. Transferring these facilities will eliminate the City's future maintenance and capital costs for operation. This project includes all work, plans, specifications, cost estimates, associated easements, and materials in support of this project.

Project Title: **Sewer Main Replacements - Design**

**Project Description:** This project will provide for the design phase of the over 20 segments of sewer mainline pipe and other adjacent street mains Citywide. Pipeline replacements are established based on an operational high priority red flag criterion. The segments of sewer pipes which will be designed were identified thru the City sewer operations staff CCTV inspection and cleaning program efforts.

### Capital Improvement Program Project Details

Project Title: **Sewer Pipeline Condition Assessment**

**Project Description:** This project provides evidence for the criteria to remove, replace, reconstruct, and repair sewer main citywide. Sewer main will be identified for replacement and/or rehabilitation based upon age, condition, pipe material, and hydraulic constraints. The pipeline condition will be determined through use of closed-circuit television (CCTV) inspections, National Association of Sewer Service Companies (NASSCO) condition criteria codes, and existing field conditions. These identified locations for repair, replacement, reconstruction, and repair shall be coordinated with the City's Public Works and Water Resources pavement replacement projects.

Project Title: **Sewer Pipeline Replacement - Citywide (Phase IV)**

**Project Description:** This project provides for the replacement of sewer mains identified as Priority 3 projects from the 2013 Citywide Closed Circuit Television (CCTV) Report and confirmed by City CCTV crews. This project will replace up to 10,000 lineal feet of sewer mains per year. This project includes all associated repair/construction materials/methods, associated plans/reports, and specifications in support of this project.
