WATER - WISE LANDSCAPING

In order to ensure that our residential areas use water wisely, it is important to approach landscape planning with a creative mindset that minimizes outdoor water usage. One effective way to achieve this is through water-smart landscaping techniques that allow you to conserve our natural resource. With the right knowledge and tools, saving water becomes a simple process that benefits both our environment and your own personal enjoyment of your surroundings.

To help you achieve your water conservation goals, we have provided a collection of resources that offer detailed guidance on how to implement water-saving landscaping techniques that enhance the beauty of your surroundings. These valuable resources provide you with the knowledge and skills needed to make the most of your landscape while minimizing water usage and preserving nature's most precious gift. Explore the City's website under Water Resources and empower yourself to create a beautiful, sustainable, and water-efficient landscape.

Para garantizar que nuestras áreas residenciales utilicen el agua de manera inteligente, es importante abordar la planificación del paisaje con una mentalidad creativa que minimice el uso de agua exterior. Una forma eficaz de lograrlo es mediante técnicas de paisajismo que utilicen agua de forma inteligente y que permitan conservar nuestros recursos naturales. Con el conocimiento y las herramientas adecuadas, ahorrar agua se convierte en un proceso sencillo que beneficia tanto a nuestro medio ambiente como al disfrute personal de su entorno.

Para ayudarle a alcanzar sus objetivos de conservación de agua, le proporcionamos una colección de recursos que ofrecen orientación detallada sobre cómo implementar técnicas de paisajismo que ahorren agua y que realcen la belleza de su entorno. Estos valiosos recursos le brindan el conocimiento y las habilidades necesarias para aprovechar al máximo su paisaje mientras minimizan el uso de agua y preservan el regalo más preciado de la naturaleza. Explore el sitio web de la ciudad en Recursos hídricos y empoderese para crear un paisaje hermoso, sostenible y eficiente en el uso del agua.

What is LIHWAP?

LIHWAP stands for the **Low Income Household Water Assistance Program**.

LIHWAP offers a **one-time payment** to help you pay your **past due water or wastewater bills**.

LIHWAP helps **pay overdue bills** which accrued during **any timeframe**.

There is no date restriction for when the overdue amount occurred.

How Do I Apply?

Households can apply for LIHWAP assistance through a local LIHWAP service provider.

Eligibility for LIHWAP services can vary depending on income, water system participation, place of residence, and other factors. Households whose utility payments are included in their rent may also be eligible for LIHWAP. Contact your local LIHWAP service provider to learn more about how to apply by visiting <https://csd.ca.gov/waterbill>.

What Can I Qualify For?

LIHWAP provides one-time payments to low-income households that are eligible for assistance. The size of a benefit can vary depending on the past due balance of the household's residential water and wastewater bills. In addition, program participation is limited to households receiving services from water and wastewater providers enrolled in LIHWAP to receive the payment of assistance benefits.

Households that qualify for LIHWAP could reduce their water or wastewater charges, or both if their bills include both services, by up to \$2,000.

If you are struggling to afford your water or wastewater bills, please visit csd.ca.gov/waterbill to see if you qualify for payment assistance through LIHWAP and to find the local service provider near you to apply.

These are the new boundaries adopted by the City Council. For legal and election purposes the new boundaries will first apply to Districts 2, 3 and 5 in the 2022 election, and then will apply to Districts 1, 4 and 6 in the 2024 election. However, for purposes of communications and City operations the City will use the new boundaries as depicted in this map.
